# 2022 BEIJING CYBER SECURITY CONFERENCE

CONVERGE ON GLOBAL CYBERSECURITY
LISTEN TO THE VOICE OF BEIJING

BEIJING·CHINA

BEIJING CYBER SECURITY CONFERENCE ®

Beijing Cyber Security Conference (BCS) continues to focus on industry key topics. The topics will range from international cyber–governance, development of the cybersecurity industry, to technology innovation and talent cultivation. The conference approaches these topics from three perspectives: Strategy, Industry, and Technology.

BCS has evolved into one of the most impactful high-profile events in Asia Pacific regions covering in-sightful viewpoints. It is well recognized by industry peers, supported by the governments, and empow-ered by the think tanks, business executives, and elite academia.
